

YOUR PATIENTS RELY ON YOU.
YOU CAN RELY ON US.

Vivid™ E95

ULTRA EDITION

TODAY'S CHALLENGES

Increasing demand, coupled with limited cardiology staff, results in additional workload challenges for the entire medical community.

 **17 MILLION**

people died from CVDs in 2019¹

 **1 in 4**

cardiologists state they are burned out²

 **>10%**

increase in Ischemic Heart Disease (IHD) alone by 2030³

 **20%**

of sonographers are leaving the profession or taking premature retirement⁴

 **108 MILLION**

annual echo exams performed globally⁵

 **x2**

shortage of health workers is **set to double**⁶

**YOUR PATIENTS RELY ON YOU.
YOU CAN RELY ON US.**

Patient care isn't just a job for you. It's a calling. A mission.

Of late, that mission has changed. Increased workloads, fewer skilled staff and increased demands on your time, resources and expertise are now the norm.

Getting the right images under this pressure is challenging.

But this isn't just a job for you and you have no intention of sacrificing quality in your practice when so much is at stake.

The Vivid E95 Ultra Edition* cardiovascular ultrasound system has been updated to meet today's challenges. To allow further improved image quality in both 2D and 4D as well as reduce tedious tasks and inter-operator variability, from the simple to the most complex cases.

Because your patients rely on you, you can rely on us.

PIONEERING INNOVATION

YOUR EXPERTISE. OUR INNOVATIONS.

Building on a history of advancements of cardiac patient care, GE has been a true pioneer introducing breakthrough technologies, such as Color Doppler systems (1986) and 2D and AFI Speckle Tracking (2005).

Discover the latest leading innovative technologies that continue to push the technical capabilities of the Vivid Ultra Edition* system for the benefit of you and your patient.

VIVID E95 ULTRA EDITION

Achieve clinical excellence

Designed to provide you with uncompromised image quality, advanced visualization capabilities and easy measurements – while helping reduce tedious tasks and inter-observer variability.

UPGRADE NOW!

LATEST INNOVATIONS

cSound ADAPT⁷

Adaptively corrects for ultrasound wave distortions caused by inhomogeneities of the speed of sound naturally present in the patient body

Optimizes IQ
100x per second⁷

Easy AutoEF⁸ & Easy AFI LV

Strain and Ejection Fraction measurements with automatic region of interest

Only 1 Click In 15 seconds
(on average)⁹

9VT-D probe¹⁰

Mini 4D trans-esophageal echocardiography (TEE) probe

Most Compact
mini 4D TEE-probe¹⁰

MODERN ERGONOMICS

Adjustable to each operator and each sitting position

- Articulating monitor arm
- Single-hand push for up/down and left-right adjustment

Excellent operator interface

- 23.8" HDU monitor
- Intuitive 12" LCD touch screen
- Adjustable floating keyboard
- Low noise cooling

Easy to maneuver

- Ergonomic, easy to push handle

YOUR VISION. OUR SUPERB IMAGES.

With the renowned superb image quality from cSound™, now Vivid Ultra Edition goes a step further with the launch of cSound ADAPT for the 4Vc-D probe.

Ultrasound waves are distorted by different patients' habitus. Inhomogeneities in body structure (made of very different speed-of-sounds, such as bone or tissue) cause **image quality degradation.**

cSound ADAPT was built and verified on **40.000** frames of channel data recordings.

10-15% of echo exams result in sub-optimal images¹¹

With the objective of improving the scanning experience on hard-to-scan patients, cSound ADAPT was developed to correct ultrasound aberrations that may degrade image quality. cSound™ ADAPT tackles the challenge of ultrasound wave distortions, you will enjoy improved image contrast and resolution – optimized in real time, at over 100 times per second, in every patient.

Image captured **without** cSound ADAPT

Image captured **with** cSound ADAPT

cSound rectifies image distortions for **enhanced image quality.**

Color Flow – Even better image quality!

3.5x more graphics processing power¹²

“The GE 4Vc-D probe with cSound ADAPT sharpens images, increasing contrast resolution and improving diagnostic confidence. In our use we experienced that the imaging enhancements reduced non diagnostic images, improved productivity and workload by reducing scan time and improving ergonomics.”

– **Lill Merete Skretteberg Lindø**
Echo technician
Oslo University Hospital, Norway

YOUR TIME. OUR WORKFLOW TOOLS.

Vivid E95 Ultra Edition introduces the latest AI-based technology to help reduce tedious tasks and improve workflow efficiency.

AI Auto Measure 2D

With the power of AI, a full set of reproducible measurements will instantly appear on the screen.

Cardiac Auto Doppler with AI Auto Measure Spectrum Recognition

With the power of AI, a wide range of Doppler measurements can be completed with 2 clicks: Freeze – Measure. A Doppler trace and full set of associated measurements will instantly appear on the screen.

LATEST INNOVATIONS

Easy AutoEF

Our AI-based Auto ROI detection algorithm allows users to complete ejection fraction, with no manual interaction apart from initiating the tool and approving the results.

Easy AFI LV with View Recognition

Our AI-based global and segmental strain measurements require no manual interaction apart from initiating the tool and approving the results. Additionally, you will be able to view EF measurements.

“The new Easy AFI LV speeds up strain measurements and simultaneously provides an automated LV ejection fraction measurement. Once good standard views are acquired, the GE strain algorithm enables incredibly robust strain measurements!”

–Prof. Erwan Donal
Cardiologist
University Hospital Center, Rennes, France

YOUR LEAD. OUR SUPPORT.

Vivid E95 Ultra Edition offers precise and uncomplicated tools to plan your interventions. With new visualization and navigation techniques and uncompromised image quality, the heart team can see clearly, communicate quickly, and perform procedures with great precision.

Realistic visualization of heart structures and blood flow

HDlive

Flexilight

HD Color

Easy communication between interventionalist and echo imager

4D Markers

View-X

Visualization and quantification of the mitral and tricuspid valves

4D Auto MVQ

4D Auto TVQ

LATEST INNOVATIONS

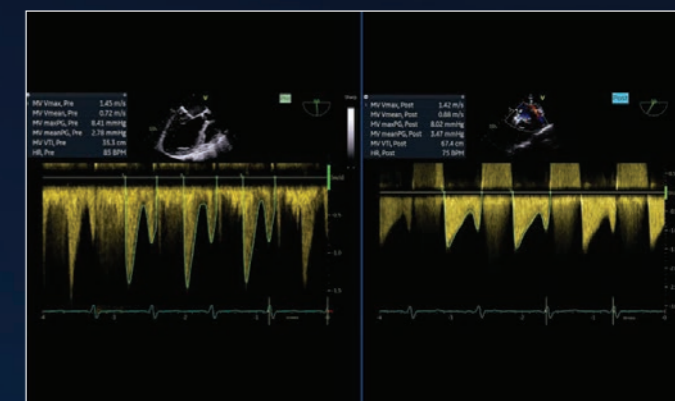

Dedicated imaging preset for improved visualization for the interventionalist

Dual Crop¹⁷ to visualize structures from two directions simultaneously

FlexiSlice Extend for easier navigation during the structural heart procedure

Pre-Post Compare to make it easier to compare pre and post procedure images and measurements

CT Fusion Live¹⁸ to enhance your team communication and increase your confidence during the procedures

YOUR MOST CHALLENGING PATIENTS.
OUR RELENTLESS SUPPORT.

The smallest cardiac patients can pose the biggest care challenges with difficult to diagnose, severe conditions. To help clearly visualize small anatomies, Vivid E95 brings you the latest in 4D breakthrough TEE and TTE technologies.

Vivid E95 Ultra Edition, with the 12S-D, 6S-D, 6Vc-D probes, was built to address all your pediatric needs.

The new 9VT-D probe has become an essential tool for any Tertiary Pediatric Cardiology Department. Its revolutionary design combines high quality imaging for any pediatric patient from neonates to teenagers, both in 2D and 3D, and the most advanced and user friendly real time 4D tools that help users obtain clinically meaningful images.

The new 9VT-D probe is an essential tool to ensure an optimal result for pediatric patients during cardiac interventional procedures, both in Cath lab and EP lab, and during any complex cardiac surgery intervention as it offers perfect real time visualization of any cardiac structure."

- **Dr. Ferrán Rosés i Noguera**
Head of Pediatric Cardiology
Vall d'Hebron Hospital - Barcelona, Spain

⇒ **10%** of pediatric echo diagnostic are driven by misleading anatomy or physiology²⁰

Introducing, 9VT-D probe!

4D TEE probe designed for a broad range of pediatric and interventional procedures and for patients as small as 5 kg.

- All 2D, 4D, Color and Doppler modes
- Cardiac, Pediatric and Coronary applications
- Scan depths down to 18 cm

Most Compact
mini 4D TEE-probe

1ST 4D TEE probe designed for small children¹⁰

YOUR FLEET. OUR SOLUTION.

Patient care doesn't end when the exam is over. Upgrade to EchoPAC™ to optimize your patient time and your post-processing time.

FAST WORKFLOW

- Fully integrated workflow with the EchoPAC Plug-in, DICOM® SR transfers to reporting systems, accelerated data transfers in clinical and research operations
- Featuring Open4D to assess & quantify 3D volumes from multivendor equipment fleets

For 3-Dimensional system vendor-agnostic analysis

EchoPAC exists as **EchoPAC Software Only** and **EchoPAC Plug-in**

EchoPAC Plug-in is available for:

- GE Healthcare Centricity™ Cardio Enterprise with Intelligent Reporting (IR)
- GE Healthcare ViewPoint™ 6 with EchoPAC Suite²¹
- As a Plug-in to third party PACS.

STATE-OF-THE-ART ACCURACY

Full access to all Vivid scanner tools:

- From the most used AI-Powered ones on routine measurements: Easy AFI LV, Easy AutoEF and Auto Doppler Spectrum Recognition
- To the most advanced ones: MyoCardial Work is a unique tool using less load dependent parameters than strain alone

Interested in MyoCardial Work?

Learn more on the publicly available Webinar on the Vivid Club website

COMFORTABLE EXPERIENCE

- Familiar Vivid user interface, faster staff ramp-up
- Analyzing and reporting from the ergonomic comfort of a workstation
- More focus on patient at acquisition

Maximize your entire fleet return on investment

- Transcend your machine performance: regardless of vendor, regardless of machine age, get all the latest Vivid tools
- Save time: get EchoPAC to free-up scanner time and perform your daily analysis off-line including LV quantifications doppler and function assessment

“I am amazed by the measurements you can perform on EchoPAC after the patient has left!”

- **Dr. Lamin E.S. Jaiteh**
 Consultant Cardiologist & Lecturer in Cardiology
 Department of Internal Medicine
 Edward Francis Small Teaching Hospital/School of Medicine &
 Allied Health Sciences, University of the Gambia

YOUR SKILLS. OUR SUPPORT.

In the core echo lab and even beyond cardiology, smart applications support your know-how.

About GE Healthcare:

GE Healthcare is the \$18 billion healthcare business of GE (NYSE: GE). As a leading global medical technology and digital solutions innovator, GE Healthcare enables clinicians to make faster, more informed decisions through intelligent devices, data analytics, applications and services, supported by its Edison intelligence platform. With over 100 years of healthcare industry experience and around 50,000 employees globally, the company operates at the center of an ecosystem working toward precision health, digitizing healthcare, helping drive productivity and improve outcomes for patients, providers, health systems and researchers around the world.

Follow us on Facebook, LinkedIn, Twitter, and Insights for the latest news, or visit our website www.gehealthcare.com for more information.
